LEARNING COMMONS

The KLO Library Learning Commons (LLC) includes both the physical space of the library as well as the digital space available to our students.

The LLC is located in the middle of the main building of our school. This space contains books for recreational reading as well as for completing class research, assignments and projects. Resources are available for our students in both English and French. The LLC also houses desktop and laptop computers that students are able to access for academic purposes both during class time, as well as before school, at lunch and after school. In addition, students are encouraged to use the LLC to work on homework, meet with partners/group members to complete projects, relax and read a book or view some of the many exhibitions of learning that take place in the space!

LEADERSHIP PROGRAMS

WHERE EVERYONE BELONGS (WEB)
WEB is a year long program built on the belief that students can help students succeed. It provides a common process to successfully articulate students from elementary to middle school. The goals of WEB are:

- To guide grade 7 students toward both academic and social success in middle school
- To provide 9th graders with leadership and mentorship opportunities
- To develop positive school climate and culture

COMMUNITY ACTION TEAM (CAT)

CAT leaders provide opportunities for KLO students and staff to make a difference in our community, as well as developing a broader world vision. CAT leaders organize events and awareness campaigns throughout the school year that help positively impact the people in our local community and identified global causes.

STUDENT VOICE

Student Voice is a forum for students to discuss ways to make their school a better place in which to learn. Through Student Voice students learn that their voice does matter and that they can make a positive difference in their school. Student representatives from all grades bring their ideas and opinions to work together with the Principal and Vice-Principals to:

- Make a positive difference in the school
- Discuss issues and concerns
- Work to improve the culture of our community
